

List of largest empires

The following is a **list of the largest empires** in world history. Rein Taagepera has defined an empire as "any relatively large sovereign political entity whose components are not sovereign" and its size as the area over which the empire has some undisputed military and taxation prerogatives,^[1] and these are the definitions used by this list.

Largest empires by land area

For context, the land area of the Earth, excluding Antarctica, is 134,740,000 km² (52,023,000 sq mi).^[2]

Empires at their greatest extent

Empire size in this list is defined as the dry land area it controls. Where estimates vary, entries are sorted by the lowest estimate. The British Empire is the largest empire by total size, though its constituent units are discontinuous across oceans, whilst the Mongolian Empire is the largest contiguous empire, being one entity in Eurasia.
